Disclaimer: The DNA analysis was carried out with great diligence and with respect to scientific knowledge. The client accepts that the testing services provided here have an inherent potential for error and that Agrobiogen GmbH makes no representation that its services will be fully accurate or error-free. Agrobiogen GmbH disclaims and excludes all warranties or representation of any kind with respect to its services including any indirect, or consequential damages. Claims for compensation are limited to intent and gross negligence.

The results are sent by email, usually within 15 working days after receipt of the sample/s.
 By signing the form, the client consents to the above genetics test being carried out and acknowledges the General Terms and Conditions of Agrobiogen GmbH (www.agrobiogen.de).
